SMART TECHNOLOGY SERVICE
FOR INDIVIDUALS WITH DISABILITIES

We are evaluating the impact of a smart home technology service designed to help individuals with disabilities choose and be trained on smart home devices and applications that can assist with the tasks and activities of daily living.

Are you eligible? Are you:

- 18 years of age or older ?
- Having difficulty interacting with or controlling your environment, due to either physical, cognitive, and/or sensory impairments ?
- Living in your own residence with internet services available ?
- Currently using a smartphone, a tablet, or an AAC device ?
- Living less than an hour's drive (60-70 mile radius) of Pittsburgh, PA ?
