

OFFICE OF INTERNATIONAL SERVICES

University Center for International Studies, University of Pittsburgh

International Graduate Financial Information 2025-2026

The Office of International Services (OIS) has prepared this document to inform you of the financial requirements to receive a student visa document (Form I-20 or Form DS-2019).

After you have been admitted to your program and accepted your offer of admission, your *academic department* will notify OIS. The federal government requires OIS to verify that you can support yourself financially in the United States during your academic program before we can create your Form I-20 or DS-2019. OIS will contact you via email and request you to upload digital versions of financial documentation, along with other information, via the [My OIS](#) online portal.

Do not send financial documentation to OIS until *after* you have been contacted directly by OIS about your admission to Pitt. Do not send personal financial documentation to your school.

How to use this document:

- Review the Financial Documentation Requirements on page 1.
- Find your specific program’s estimated cost of attendance on pages 2, 3, 4, 5 or 6.
- Gather the required documentation, and then upload it via the e-form in My OIS that OIS has instructed you to submit.
- Contact oisnew@pitt.edu with questions about financial requirements.

Financial Documentation Requirements:

Acceptable documentation (liquid funds)	Bank statements or letters, savings accounts, loan documentation, stocks/bonds that are available for immediate withdrawal without penalty
Acceptable documentation (other funds)	Funding letters from Pitt (TA, GSR, etc.), Pitt scholarship letters, proof of government funding
<i>Unacceptable documentation</i>	Real estate, personal property (jewelry, vehicles, etc.), retirement accounts, salary information, tax returns

All financial support documents must:

- be submitted in English
- list the currency used, and total amount available (OIS can convert the currency to U.S. dollars)
- list the specific date that the documentation was written or printed
 - all documents must be issued within the past six (6) months
- list your name, or the specific name of your financial sponsor
- **Note:** you can submit *multiple* sources of financial documentation to meet your program’s estimated cost of attendance

Financial sponsors:

- students may include proof of financial support from one, or more, sponsor(s)
- each sponsor must prepare an [Attestation of Financial Support](#):
 - each sponsor must list the specific amount of financial support that they will provide
 - each sponsor must physically sign this form; typing in a signature is not acceptable
 - you must also sign the Attestation of Financial Support, and upload it to the proper My OIS e-form

Dependents (spouse and/or unmarried children under 21 years old who will live with you in the U.S.):

- You must provide an additional \$6,725 per dependent
- Amount determined by 125% of the Department of Health & Human Services’ [estimate](#).

Note: although OIS accepts digital versions of financial documents, you must bring the original versions to you visa appointment at the U.S. Embassy or Consulate. Make sure to keep the original copies.

International Graduate Financial Information 2025-2026

The estimates below are based on actual costs for Academic Year 2024-25. For immigration purposes, providing evidence of financial support to meet the costs outlined below is sufficient; however, please note that **actual costs will likely increase for the 2025-2026 academic year.**

Students should add **\$6,725 per year for each dependent** family member (spouse and/or unmarried children under the age of 21) who will accompany them to the U.S. The dependent estimate does not include health insurance.

School of Medicine First Professional Program

Cost of Attendance Figures for 2025-2026

International students accepted for admission to the School of Medicine will be required to deposit into escrow with the University of Pittsburgh's Student Payment Center a sum equal to the total cost of education for their first two years of medical school with documented support of the ability to pay their final two years. This deposit is a requirement of the School of Medicine.

The current escrow amount for two years of medical education at the University of Pittsburgh School of Medicine is approximately \$197,500 USD. Any scholarships awarded to the applicant from the University of Pittsburgh School of Medicine will be subtracted from the total amount required in escrow for the two years. No interest will be paid to the student on the funds that are in escrow.

The Office of International Services will issue the Form I-20 only after the deposit of \$197,500 has been made to the [Student Payment Center](#).
